

## Agrarian prostitution

The current mood to live the words exchange  
through the man that will be exempted to the illusion  
of a former twinning  
under his own earth volume  
of an indo European migration  
is the settlement effect on the form of the thought  
reminding the fatherhood of a daughter love  
that can't be sold or physically acted  
but elaborated like a false belief  
involving the sound volume of an everlasting lack  
to the prior regression for a virtual image  
used like the hashes custom of an antic fire  
for the academic imaginary of the artist  
on his reflected muse  
operating an aware attitude  
with the group purview for a virgin an beginning state  
to show an equality of the perfect time  
with an invisible memory  
such an obsidional dignity of the truth  
with an empty or a full space  
that catches in the meaning of peoples voices  
an unreachable weeding to the sea  
performing the slavery to a crowned head  
similar to the power to escape  
from the primitive childhood

and seems to die for the man dream  
in the joining to the reproduction  
of the Italian model of west Mediterranean  
being a body resignation to reality  
among public images  
to involve the confusion of a sexual habit with worships  
and identify the attractive feeling  
with the agrarian movement of a neoplatonic entertainment  
that furthers the facing trade of its shoddy necklace  
around their neck addicts  
sharing the lost and timeless space  
of an individual freedom  
by the reintegration of an immunity  
for the hero as for the fake and true artist  
that shows both the two inseparable sides  
of the physical person and his mind.
